

The first annual

« Weight and Osteoarthritis »

Tuesday 8 May 2012
6:00 - 9:15 pm

Convention Center Lyon
Sky scraper room 1 & 2

This symposium will endeavour to summarize the latest data relative to osteoarthritis and adipose tissue biology and how they interact. The session will continue with communications focusing on the cross-disciplinary aspects of managing osteoarthritic overweight or obese patients.

Co-Chairs : Pr Xavier Chevalier (Henri-Mondor - Créteil)
Pr Jean-Michel Oppert (Pitié Salpêtrière - Paris)
